Course Introduction	The WTO is an organization for liberalizing trade, and provides the following three main functions: (1) a forum for governments to negotiate trade agreements, (2) a place for them to settle trade disputes, and (3) an organization to operate a system of trade rules. At its heart are the WTO agreements, negotiated and signed by the bulk of the world’ s trading nations. These documents provide the legal ground-rules for International commerce. They are essentially contracts, binding governments to keep their trade policies within agreed limits.
