## Tamkang University Academic Year 102, 2nd Semester Course Syllabus

Course Title	ECONOMETRICS (II)	Instructor	PEI-CHIEN LIN
Course Class	TLEXM1A  MASTER'S PROGRAM, DEPARTMENT OF INDUSTRIAL ECONOMICS, 1A	Details	<ul><li>Required</li><li>One Semester</li><li>3 Credits</li></ul>

### Departmental Aim of Education

Master program: To cultivate students to be a person with academic research abilities and industrial analytical techniques.

#### Departmental core competences

- A. The ability of academic research in industrial economics.
- B. The ability of theoretical modeling and empirical applications.
- C. The ability of data collection and literature review.
- D. The ability of reading and writing papers in English.
- E. The ability of searching research topics.
- F. The ability of cooperating with advisors in writing academic research papers.
- G. With the required knowledge in pursuing Ph.D. program.
- H. The ability of independent research in advanced practical analyses and industrial policy-making.

## Course Introduction

Econometrics is based on the development of statistical method for estimating economic relationships, testing economic theory and evaluating government policy and business decision. In this courses, I will introduce the structures (or types) of economic data first and then the appropriate methodologies to analyze them. The topics covered include multiple regression on cross-sectional data, regression on time series data, panel data models, instrumental variables estimation, simultaneous equation model, limited dependent variable models, and advanced time series topics.

# The Relevance among Teaching Objectives, Objective Levels and Departmental core competences

P6-Origination

I.Objective Levels (select applicable ones):

(i) Cognitive Domain : C1-Remembering, C2-Understanding, C3-Applying, C4-Analyzing, C5-Evaluating, C6-Creating

(ii) Psychomotor Domain: P1-Imitation, P2-Mechanism, P3-Independent Operation,

P4-Linked Operation, P5-Automation,

(iii) Affective Domain : Al-Receiving, A2-Responding, A3-Valuing, A4-Organizing, A5-Charaterizing, A6-Implementing

II. The Relevance among Teaching Objectives, Objective Levels and Departmental core competences:

- (i) Determine the objective level(s) in any one of the three learning domains (cognitive, psychomotor, and affective) corresponding to the teaching objective. Each objective should correspond to the objective level(s) of ONLY ONE of the three domains.
- (ii) If more than one objective levels are applicable for each learning domain, select the highest one only. (For example, if the objective levels for Cognitive Domain include C3,C5,and C6, select C6 only and fill it in the boxes below. The same rule applies to Psychomotor Domain and Affective Domain.)
- (iii) Determine the Departmental core competences that correspond to each teaching objective. Each objective may correspond to one or more Departmental core competences at a time. (For example, if one objective corresponds to three Departmental core competences: A,AD, and BEF, list all of the three in the box.)

	Teaching Objectives		Relevance	
No.			Departmental core competences	
1	To establish students' knowledge on the field of Econometrics.	C2	А	
2	To cultivate students' capability of empirical modeling and reasoning.	C3	BCD	
3	3. To assist students finding interested research topics.	C6	EFGH	

## Teaching Objectives, Teaching Methods and Assessment

No.	Teaching Objectives	Teaching Methods	Assessment		
1	To establish students' knowledge on the field of Econometrics.	Lecture, Discussion	Practicum, Report, Participation		
2	<ol> <li>To cultivate students' capability of empirical modeling and reasoning.</li> </ol>	Lecture, Discussion, Practicum	Practicum, Report, Participation		
3	3. To assist students finding interested research topics.	Lecture, Discussion, Practicum	Practicum, Report, Participation		

Essential Qualities of TKU Students		Qualities of TKU Students	Des	Description	
◆ A global perspective		pective	Helping students develop a broader perspective from which to understand international affairs and global development.		
◆ Information literacy		teracy	Becoming adept at using information the proper way to process information		
A vision for the future		e future	Understanding self-growth, social change, and technological development so as to gain the skills necessary to bring about one's future vision.		
◆ Moral integrity		у	Learning how to interact with others, practicing empathy and caring for others, and constructing moral principles with which to solve ethical problems.		
•	Independent	thinking		Encouraging students to keenly observe and seek out the source of their problems, and to think logically and critically.	
<b>\Q</b>	A cheerful att	itude and healthy lifestyle		Raising an awareness of the fine balance between one's body and soul and the environment; helping students live a meaningful life.	
♦ A spirit of teamwork and dedication		mwork and dedication	Improving one's ability to communic integrate resources, collaborate with problems.	Improving one's ability to communicate and cooperate so as to integrate resources, collaborate with others, and solve	
		sthetic appreciation	Equipping students with the ability to sense and appreciate aesthetic beauty, to express themselves clearly, and to enjoy the creative process.		
			Course Schedule		
Veek	Date		Subject/Topics	Note	
1	103/02/17 ~ 103/02/23	Heteroscadasticity			
2	103/02/24 ~ 103/03/02	Heteroscadasticity/Specification and Data Issue			
3	103/03/03 ~ 103/03/09	Specification and Data Issu	Specification and Data Issue		
4	103/03/10 ~ 103/03/16	[In Class Presentation of Co	[In Class Presentation of Computer Exercise Problems 1]		
5	103/03/17 ~ 103/03/23	Time Series Data (Basic Regression)			
6	103/03/24 ~ 103/03/30	Times Series Data (Further Issues)			
7	103/03/31 ~ 103/04/06	Holiday break			
8	103/04/07 ~ 103/04/13	Time Series Data (Serial Correlation and Heteroskedasticity)			
9	103/04/14 ~ 103/04/20	Advanced Time Series Topi	ic	Assignment 2	
10	103/04/21 ~ 103/04/27	[In Class Presentation of Computer Exercise Problems 2]			
11	103/04/28 ~ 103/05/04	Panel Data Model (Simple	Panel Data Method)		

	103/05/12~			
13	103/05/18	Instrumental Variables Estimation and 2SLS		
14	103/05/19 ~ 103/05/25	Limited Dependent Variable Model	Assignment 3	
15	103/05/26 ~ 103/06/01	[In Class Presentation of Computer Exercise Problems 3]		
16   103/06/02 ~   103/06/08		Thesis presentation		
17	103/06/09 ~ 103/06/15	Presentation for term paper		
18	103/06/16 ~ 103/06/22	Presentation for term paper		
Requirement				
Tea	hing Facility Computer, Projector			
Textbook(s)		Wooldridge, J. M., Introductory Econometrics: A modern Approach, international edition.		
Reference(s)		<ol> <li>Maddala, C. S., Introduction to Econometrics, 4rd ed. 2010.</li> <li>Baltagi, B. H., Econometric Analysis of Panel Data, 4rd ed. 2008.</li> <li>Enders, W., Applied Econometric Time Series, 3rd ed., 2010.</li> </ol>		
Number of Assignment(s)		4 (Filled in by assignment instructor only)		
Grading Policy		<ul> <li>↑ Attendance: 10.0 %</li></ul>
