The Relevance among Teaching Objectives, Objective Levels and Schoolwide essential virtues

I.Objective Levels (select applicable ones) :

- (i) Cognitive Domain : C1-Remembering, C2-Understanding, C3-Applying,
C4-Analyzing, C5-Evaluating, C6-Creating
- (ii) Psychomotor Domain : P1-Imitation, P2-Mechanism, P3-Independent Operation,
P4-Linked Operation, P5-Automation, P6-Origination
- (iii) Affective Domain : A1-Receiving, A2-Responding, A3-Valuing,
A4-Organizing, A5-Charaterizing, A6-Implementing

II.The Relevance among Teaching Objectives, Objective Levels and Schoolwide essential virtues :

- (i) Determine the objective level(s) in any one of the three learning domains (cognitive, psychomotor, and affective) corresponding to the teaching objective. Each objective should correspond to the objective level(s) of ONLY ONE of the three domains.
- (ii) If more than one objective levels are applicable for each learning domain, select the highest one only. (For example, if the objective levels for Cognitive Domain include C3,C5,and C6, select C6 only and fill it in the boxes below. The same rule applies to Psychomotor Domain and Affective Domain.)
- (iii) Determine the Schoolwide essential virtues that correspond to each teaching objective. Each objective may correspond to one or more Schoolwide essential virtues at a time. (For example, if one objective corresponds to three Schoolwide essential virtues: A,AD, and BEF, list all of the three in the box.)

No.	Teaching Objectives	Relevance	
		Objective Levels	Schoolwide essential virtues
1	The students will be able to understand the historical background, basic concepts, principles of application and future perspectives of global technologies, and realize its influences and potential impacts on energy and high tech, such as nanotechnology and biomedical technology, etc.	C2	ABC
2	The students shall be aware of the development, status and future trends of the major areas of technology.	C2	ABC
3	The students shall be able to recognize that many of the social and environmental changes are due to the evolution of technology; then, they may reasonably address kinds of issues, either occurring or potential, in social, ethical, environmental or energy, etc. aspects.	C2	ABC

Each group is scheduled to give an oral presentation of 30 min (3 min for each person) and they should hand in one integrated paper report. The title and the content of the presentation should be relevant to this course. The presentation score of each group is determined by the audience and Prof. Yang by 50%-50% weighting ratio. Additionally, each student should clearly mention his/her contribution to his/her group in the final term report.</p> <p>3.(Others) The questions of the mid-term test are designed by "all students in this class". Each group should figure out the class content of each topic and try to design their ideal exam questions. The leaders of the 7 groups are responsible for giving their proposed questions to Prof. Yang two weeks before the exams. These proposed questions of the mid-term will be opened to all students.</p>
