

## Tamkang University Academic Year 104, 2nd Semester Course Syllabus

Course Title	CALCULUS	Instructor	CHAN CHANG WHEI-CHING
Course Class	TLFBB1A DIVISION OF GLOBAL COMMERCE, DEPARTMENT OF INTERNATIONAL BUSINESS (ENGLISH TAUGHT PROGRAM), 1A	Details	<ul style="list-style-type: none"> <li>◆ Required</li> <li>◆ 2nd Semester</li> <li>◆ 2 Credits</li> </ul>
D e p a r t m e n t a l   A i m   o f   E d u c a t i o n			
<ul style="list-style-type: none"> <li>I . Acquisition of professional knowledge.</li> <li>II . Learning effective self-planning.</li> <li>III . Theoretical application of practical matters.</li> <li>IV . Interpersonal communication and teamwork.</li> <li>V . Analysis of problems and recommendations.</li> <li>VI . Awareness of Ethics as a global citizen.</li> </ul>			
D e p a r t m e n t a l   c o r e   c o m p e t e n c e s			
<ul style="list-style-type: none"> <li>A. Financial accounting professional skills.</li> <li>B. To understand basic knowledge of business administration.</li> <li>C. To communicate, negotiate, and collaborate to accomplish business projects by team work.</li> <li>D. Knowledge of basic statistical theory.</li> <li>E. Application of profession knowledge.</li> <li>F. Have a firm grasp of the fundamental concepts in economics.</li> <li>G. Have the ability to apply basic analytical tools to economic issues.</li> <li>H. Students are equipped with professional knowledge of core courses.</li> <li>I. Students can apply their profession to practice matters.</li> </ul>			
Course Introduction	<p>This course is to introduce the basic skill about the integration to students. Students will learn the basic idea and application to real life problem. The concept of several variables function will be introduced. The technique of taking the partial derivative and double integral.</p>		

## The Relevance among Teaching Objectives, Objective Levels and Departmental core competences

I. Objective Levels (select applicable ones) :

- (i) Cognitive Domain : C1-Remembering, C2-Understanding, C3-Applying,  
C4-Analyzing, C5-Evaluating, C6-Creating
- (ii) Psychomotor Domain : P1-Imitation, P2-Mechanism, P3-Independent Operation,  
P4-Linked Operation, P5-Automation, P6-Origination
- (iii) Affective Domain : A1-Receiving, A2-Responding, A3-Valuing,  
A4-Organizing, A5-Characterizing, A6-Implementing

II. The Relevance among Teaching Objectives, Objective Levels and Departmental core competences :

- (i) Determine the objective level(s) in any one of the three learning domains (cognitive, psychomotor, and affective) corresponding to the teaching objective. Each objective should correspond to the objective level(s) of ONLY ONE of the three domains.
- (ii) If more than one objective levels are applicable for each learning domain, select the highest one only. (For example, if the objective levels for Cognitive Domain include C3, C5, and C6, select C6 only and fill it in the boxes below. The same rule applies to Psychomotor Domain and Affective Domain.)
- (iii) Determine the Departmental core competences that correspond to each teaching objective. Each objective may correspond to one or more Departmental core competences at a time. (For example, if one objective corresponds to three Departmental core competences: A, AD, and BEF, list all of the three in the box.)

No.	Teaching Objectives	Relevance	
		Objective Levels	Departmental core competences
1	Learn how to integrate a given function. How to take the partial derivative of several variable function and double integration. Determine the maximum and minimum of a given two variables function.	C3	HI

### Teaching Objectives, Teaching Methods and Assessment

No.	Teaching Objectives	Teaching Methods	Assessment
1	Learn how to integrate a given function. How to take the partial derivative of several variable function and double integration. Determine the maximum and minimum of a given two variables function.	Lecture, Problem solving	Written test

This course has been designed to cultivate the following essential qualities in TKU students

Essential Qualities of TKU Students	Description
◇ A global perspective	Helping students develop a broader perspective from which to understand international affairs and global development.
◇ Information literacy	Becoming adept at using information technology and learning the proper way to process information.
◇ A vision for the future	Understanding self-growth, social change, and technological development so as to gain the skills necessary to bring about one's future vision.
◇ Moral integrity	Learning how to interact with others, practicing empathy and caring for others, and constructing moral principles with which to solve ethical problems.
◆ Independent thinking	Encouraging students to keenly observe and seek out the source of their problems, and to think logically and critically.
◇ A cheerful attitude and healthy lifestyle	Raising an awareness of the fine balance between one's body and soul and the environment; helping students live a meaningful life.
◇ A spirit of teamwork and dedication	Improving one's ability to communicate and cooperate so as to integrate resources, collaborate with others, and solve problems.
◇ A sense of aesthetic appreciation	Equipping students with the ability to sense and appreciate aesthetic beauty, to express themselves clearly, and to enjoy the creative process.

#### Course Schedule

Week	Date	Subject/Topics	Note
1	105/02/15 ~ 105/02/21	Indefinite integration	
2	105/02/22 ~ 105/02/28	Integration by substitution	
3	105/02/29 ~ 105/03/06	The definite integral and the fundamental theorem of calculus	
4	105/03/07 ~ 105/03/13	Application, area, Lorenz curve, average value	
5	105/03/14 ~ 105/03/20	Application, future and present value of an income flow. integration by parts	
6	105/03/21 ~ 105/03/27	Integration by parts	
7	105/03/28 ~ 105/04/03	Improper integral	
8	105/04/04 ~ 105/04/10	spring break	
9	105/04/11 ~ 105/04/17	Numerical integration, review	
10	105/04/18 ~ 105/04/24	Midterm Exam Week	
11	105/04/25 ~ 105/05/01	Functions of several variables. Partial derivative	
12	105/05/02 ~ 105/05/08	Partial derivative, Optimizing functions of two variables	

13	105/05/09 ~ 105/05/15	Optimization. Constrained optimization.	
14	105/05/16 ~ 105/05/22	Lagrange multipliers	
15	105/05/23 ~ 105/05/29	Double integral	
16	105/05/30 ~ 105/06/05	Double integral	
17	105/06/06 ~ 105/06/12	Review	
18	105/06/13 ~ 105/06/19	Final Exam Week	
Requirement			
Teaching Facility	(None)		
Textbook(s)	Calculus 11th edition by Hoffmann, Bradley, Sobecki and Price		
Reference(s)			
Number of Assignment(s)	(Filled in by assignment instructor only)		
Grading Policy	◆ Attendance : 10.0 %    ◆ Mark of Usual :        %    ◆ Midterm Exam : 35.0 % ◆ Final Exam : 35.0 % ◆ Other (recitation , quize) : 20.0 %
