Tamkang University Academic Year 106, 2nd Semester Course Syllabus

Course Title	APPLIED ECONOMETRICS FOR FINANCE	Instructor	HUEIY-FEN WANG
Course Class	TLWXB3A rse Class BACHELOR'S PROGRAM IN GLOBAL FINANCIAL MANAGEMENT (ENGLISH-TAUGHT PROGRAM),		◆ Selective◆ One Semester◆ 3 Credits

Departmental Aim of Education

- I. Learning and instanding international financial theory.
- II. Learn to plan the future.
- Ⅲ. Enhance the ability of practical analysis.
- IV. Increase the team research ability.
- V. Master the international financial pulsation.
- VI. Cultivate morality and global civilization.

Departmental core competences

- A. The student to have a basic knowledge of international financial management theory and practice.
- B. To have a good grounding of relevant financial laws.
- C. To understand the basic moral principles within the international financial industry.
- D. To have a global perspective of the subject and a basic command of foreign language abilities.
- E. To obtain international professional qualifications that will aid their future career.
- F. To obtain a basic ability to examine domestic and global financial situations.

	Course Introduction	The course has the following objects: (i) introduce alternative sources of financial and economic data, and manipulate the data collected. (ii) use the econometric method and apply the data to analyze relevant financial and economic topics. All estimations are carried out by the current popular Stata software.
--	------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The Relevance among Teaching Objectives, Objective Levels and Departmental core competences

I.Objective Levels (select applicable ones):

(i) Cognitive Domain : C1-Remembering, C2-Understanding, C3-Applying, C4-Analyzing, C5-Evaluating, C6-Creating

(ii) Psychomotor Domain: P1-Imitation, P2-Mechanism, P3-Independent Operation,

P4-Linked Operation, P5-Automation, P6-Origination

(iii) Affective Domain : A1-Receiving, A2-Responding, A3-Valuing, A4-Organizing, A5-Charaterizing, A6-Implementing

II. The Relevance among Teaching Objectives, Objective Levels and Departmental core competences:

- (i) Determine the objective level(s) in any one of the three learning domains (cognitive, psychomotor, and affective) corresponding to the teaching objective. Each objective should correspond to the objective level(s) of ONLY ONE of the three domains.
- (ii) If more than one objective levels are applicable for each learning domain, select the highest one only. (For example, if the objective levels for Cognitive Domain include C3,C5, and C6, select C6 only and fill it in the boxes below. The same rule applies to Psychomotor Domain and Affective Domain.)
- (iii) Determine the Departmental core competences that correspond to each teaching objective. Each objective may correspond to one or more Departmental core competences at a time. (For example, if one objective corresponds to three Departmental core competences: A,AD, and BEF, list all of the three in the box.)

	Teaching Objectives		Relevance	
No.			Departmental core competences	
1	Introduce alternative sources of financial and economic data.	C2	AF	
2	Use the econometric method and apply the data to analyze relevant financial and economic topics.	C2	AF	
3	Introduce the statistical software package: Stata for data analysis, data management, and graphics.	C2	AF	

Teaching Objectives, Teaching Methods and Assessment

L					
No	Teaching Objectives	Teaching Methods	Assessment		
1	Introduce alternative sources of financial and economic data.	Lecture	Participation		
2	Use the econometric method and apply the data to analyze relevant financial and economic topics.	Lecture, Problem solving	Written test, Practicum, Report, Participation		
3	Introduce the statistical software package: Stata for data analysis, data management, and graphics.	Lecture, Problem solving	Written test, Practicum, Report, Participation		

Essential Qualities of TKU Students		Qualities of TKU Students	Descrip	tion	
		pective	Helping students develop a broader perspective from which to understand international affairs and global development.		
*	Information li	teracy	Becoming adept at using information tec the proper way to process information.	chnology and learning	
A vision for the future		e future	Understanding self-growth, social change, and technological development so as to gain the skills necessary to bring about one's future vision.		
		у	Learning how to interact with others, practicing empathy and caring for others, and constructing moral principles with which to solve ethical problems.		
*	Independent :	thinking		Encouraging students to keenly observe and seek out the source of their problems, and to think logically and critically.	
\Diamond	A cheerful att	itude and healthy lifestyle		Raising an awareness of the fine balance between one's body and soul and the environment; helping students live a meaningful life.	
*	A spirit of tea	mwork and dedication	Improving one's ability to communicate	Improving one's ability to communicate and cooperate so as to integrate resources, collaborate with others, and solve	
		sthetic appreciation	Equipping students with the ability to sense and appreciate aesthetic beauty, to express themselves clearly, and to enjoy the creative process.		
			Course Schedule		
Week	Date	Subject/Topics Note		Note	
1	107/02/26 ~ 107/03/04	Introduction to this course			
2	107/03/05 ~ 107/03/11	Introduction to Stata (from Tamkang SoftCloud)			
3	107/03/12 ~ 107/03/18	Data sources (WDI)			
4	107/03/19 ~ 107/03/25	Data source (FRED)			
5	107/03/26 ~ 107/04/01	Linear regression in Stata: E	stimation		
6	107/04/02 ~ 107/04/08	No class			
7	107/04/09 ~ 107/04/15	Linear regression in Stata: Inference			
8	107/04/16 ~ 107/04/22	Dummy variable regression (I)			
9	107/04/23 ~ 107/04/29	Mid-term exam with computer in the computer lab.			
10	107/04/30 ~ 107/05/06	Midterm Exam Week			
	107/05/07 ~ 107/05/13	Dummy variable regression	(II)		
11				1	

13	107/05/21 ~ 107/05/27	Interaction effects	
14	107/05/28 ~ 107/06/03	Heteroskedasticity	
15	15 107/06/04 ~ Final presentation (I)		
16 107/06/11 ~ 107/06/17		Final presentation (II)	
17	107/06/18 ~ 107/06/24	Final presentation (III)	
18	107/06/25 ~ 107/07/01	Final Exam Week	
Requirement			
Teaching Facility Co		Computer, Projector	
Textbook(s)		Jeffrey M. Wooldridge, Introductory Econometrics: A Modern Approach, 6th edition	
Reference(s)			
Number of Assignment(s)		4 (Filled in by assignment instructor only)	
Grading Policy		 ◆ Attendance: 10.0 %
