## Tamkang University Academic Year 106, 2nd Semester Course Syllabus

Course Title	ELECTRODYNAMICS (I)	Instructor	HO, CHOON-LIN
Course Class	TSPXD1A DOCTORAL PROGRAM, DEPARTMENT OF PHYSICS, 1A	Details	<ul><li>Selective</li><li>One Semester</li><li>3 Credits</li></ul>

## Departmental Aim of Education

- I. Conveying professional knowledge: Teach the students to learn the core knowledge of physics, to obtain the basic skills needed for physics research, and to apply the professional knowledge to physics related technologies.
- II. Analyzing and solving problems: Guide the students to analyze problems, and to acquire the mathematical ability to quantify conceptual models and also the capability needed to think and to innovate in solving various scientific and engineering problems.
- III. Training for experimental techniques: Teach the students on how to carry out and to verify various experiments, and at the same time to have the mentality of working cautiously and the awareness in operating safely.
- IV. Expressing personal characteristics: Help the students to use their personal characteristics, like resolution, sincerity, and concentration, plus their professional skills to gain recognition among the executives and their peers.
- V. Cultivating team spirit: Train the students to have the organizational ability and the communicational skills to let them have the adaptability to integrate into a professional team, and to obtain the ability to bring out and to put to use the strength of.
- VI. Building international views: Comply to the trends of globalization to build an international learning environment and opportunities in order to educate the students to continue in their self-advancements, to absorb new worldwide knowledge, and to become.

## Departmental core competences

- A. To acquire the core knowledge in the field of physics.
- B. To understand the overall features of specific fields of physics.
- C. To learn the advanced knowledge of specific fields of physics.
- D. To obtain the mathematical ability to quantify concepts, models, and practical problems.
- E. To cultivate the basic ability to discover, to analyze, and to solve problems.
- F. To practice the actual handling of physics problems.
- G. To comprehend the trend of technological development and to acquire the knowledge and skills of other fields needed in their professional career.
- H. To have good oral and written skills.

Iı	Course ntroduction	This course introduces the basi electrodynamics.	c theory and applications of classic	cal					
()	The Relevance among Teaching Objectives, Objective Levels and Departmental core competences  I.Objective Levels (select applicable ones):  (i) Cognitive Domain : C1-Remembering, C2-Understanding, C3-Applying, C4-Analyzing, C5-Evaluating, C6-Creating  (ii) Psychomotor Domain : P1-Imitation, P2-Mechanism, P3-Independent Operation, P4-Linked Operation, P5-Automation, P6-Origination  (iii) Affective Domain : A1-Receiving, A2-Responding, A3-Valuing, A4-Organizing, A5-Charaterizing, A6-Implementing  II.The Relevance among Teaching Objectives, Objective Levels and Departmental core competences:  (i) Determine the objective level(s) in any one of the three learning domains (cognitive, psychomotor, and affective) corresponding to the teaching objective. Each objective should correspond to the objective level(s) of ONLY ONE of the three domains.  (ii) If more than one objective levels are applicable for each learning domain, select the highest one only. (For example, if the objective levels for Cognitive Domain include								
(	C3,C5, and C6, select C6 only and fill it in the boxes below. The same rule applies to Psychomotor Domain and Affective Domain.)  (iii) Determine the Departmental core competences that correspond to each teaching objective. Each objective may correspond to one or more Departmental core competences at a time.  (For example, if one objective corresponds to three Departmental core competences: A,AD, and BEF, list all of the three in the box.)  Relevance  Teaching Objectives  Objective Departmental core

Т	his course has been designed to	cultivate the following essential qualities	in TKU students	
Essential Qualities of TKU Students		Description		
◇ A global perspective		Helping students develop a broader perspective from which to understand international affairs and global development.		
◆ Information literacy		Becoming adept at using information technology and learning the proper way to process information.		
◇ A vision for the future		Understanding self-growth, social change, and technological development so as to gain the skills necessary to bring about one's future vision.		
		Learning how to interact with others, practicing empathy and caring for others, and constructing moral principles with which to solve ethical problems.		
◆ Independent thinking		Encouraging students to keenly observe and seek out the source of their problems, and to think logically and critically.		
A cheerful attitude and healthy lifestyle		Raising an awareness of the fine balance between one's body and soul and the environment; helping students live a meaningful life.		
A spirit of teamwork and dedication		Improving one's ability to communicate and cooperate so as to integrate resources, collaborate with others, and solve problems.		
A sense of aesthetic appreciation		Equipping students with the ability to sense and appreciate aesthetic beauty, to express themselves clearly, and to enjoy the creative process.		
		Course Schedule		
Date	Subject/Topics		Note	
107/02/26 ~ 107/03/04	A brief review of vector analysis			
107/03/05 ~ 107/03/11	The Maxwell equations			
107/03/12 ~ 107/03/18	ditto			
107/03/19 ~ 107/03/25	Electrostatics - Coulomb's and Gauss' laws			
107/03/26 ~ 107/04/01	ditto			
107/04/02 ~ 107/04/08	Spring break			
107/04/09 ~ 107/04/15	Magnetostatics - Biot-Savart's, and Ampere's law			
107/04/16 ~ 107/04/22	ditto			
	formation lite vision for the oral integrity dependent t cheerful attir spirit of tear sense of aes  Date  07/02/26 ~ 07/03/04  07/03/05 ~ 07/03/11  07/03/12 ~ 07/03/18  07/03/19 ~ 07/03/26 ~ 07/04/01  07/04/02 ~ 07/04/08  07/04/09 ~ 07/04/15  07/04/16 ~	formation literacy  vision for the future  oral integrity  dependent thinking  cheerful attitude and healthy lifestyle  spirit of teamwork and dedication  sense of aesthetic appreciation  Date Sub  07/02/26~ 07/03/04  A brief review of vector analysi  07/03/05~ 07/03/11  The Maxwell equations  07/03/12~ 07/03/18  07/03/19~ Electrostatics - Coulomb's and  07/03/25  07/03/26~ 07/04/01  07/04/02~ O7/04/04  Spring break  07/04/09~ O7/04/09~ O7/04/15  Magnetostatics - Biot-Savart's,  07/04/16~ ditto	understand international affairs and global Becoming adept at using information techr the proper way to process information.
