

Tamkang University Academic Year 107, 1st Semester Course Syllabus

Course Title	MULTIPHASE FLOW THEORY	Instructor	CHENG-HSIEN LEE
Course Class	TEWXD1A DOCTORAL PROGRAM, DEPARTMENT OF WATER RESOURCES AND ENVIRONMENTAL ENGINEERING, 1A	Details	<ul style="list-style-type: none"> ◆ Selective ◆ One Semester ◆ 3 Credits
D e p a r t m e n t a l A i m o f E d u c a t i o n			
<p>I . Cultivating students with capabilities of carrying out practical works or academic research related to water resources and environmental engineering.</p> <p>II. Cultivating students with capability of solving problems through researching, planning, and management.</p> <p>III. Cultivating students to become professional engineers with care in environment and professional ethics.</p> <p>IV. Preparing students with the capabilities of engaging in international engineering business, to adapt to globalization and social needs, and to expand their global perspectives.</p>			
D e p a r t m e n t a l c o r e c o m p e t e n c e s			
<p>A. Mathematical and engineering knowledge needed for water resources and environmental engineering applications.</p> <p>B. Capabilities of planning and conducting experiments, analyzing and explaining experimental data, applying information tool, and collecting and compiling data.</p> <p>C. Logical thinking, analysis, integration, problem-solving skills, engineering planning, design and implementation ability.</p> <p>D. Skill of using professional foreign language and global perspective.</p> <p>E. Capabilities of writing and presenting research report.</p> <p>F. Awareness of the importance of teamwork, working attitude and professional ethics, and to learn continuously.</p>			
Course Introduction	This course covers fluid mechanics, equations governing fluid dynamics, finite volume method, linear algebra, and so on.		

The Relevance among Teaching Objectives, Objective Levels and Departmental core competences

I. Objective Levels (select applicable ones) :

- (i) Cognitive Domain : C1-Remembering, C2-Understanding, C3-Applying,
C4-Analyzing, C5-Evaluating, C6-Creating
- (ii) Psychomotor Domain : P1-Imitation, P2-Mechanism, P3-Independent Operation,
P4-Linked Operation, P5-Automation, P6-Origination
- (iii) Affective Domain : A1-Receiving, A2-Responding, A3-Valuing,
A4-Organizing, A5-Characterizing, A6-Implementing

II. The Relevance among Teaching Objectives, Objective Levels and Departmental core competences :

- (i) Determine the objective level(s) in any one of the three learning domains (cognitive, psychomotor, and affective) corresponding to the teaching objective. Each objective should correspond to the objective level(s) of ONLY ONE of the three domains.
- (ii) If more than one objective levels are applicable for each learning domain, select the highest one only. (For example, if the objective levels for Cognitive Domain include C3, C5, and C6, select C6 only and fill it in the boxes below. The same rule applies to Psychomotor Domain and Affective Domain.)
- (iii) Determine the Departmental core competences that correspond to each teaching objective. Each objective may correspond to one or more Departmental core competences at a time. (For example, if one objective corresponds to three Departmental core competences: A, AD, and BEF, list all of the three in the box.)

No.	Teaching Objectives	Relevance	
		Objective Levels	Departmental core competences
1	An in-depth understanding of computation fluid dynamics	C2	AC

Teaching Objectives, Teaching Methods and Assessment

No.	Teaching Objectives	Teaching Methods	Assessment
1	An in-depth understanding of computation fluid dynamics	Lecture, Discussion	Written test, Participation

This course has been designed to cultivate the following essential qualities in TKU students

Essential Qualities of TKU Students	Description
◇ A global perspective	Helping students develop a broader perspective from which to understand international affairs and global development.
◇ Information literacy	Becoming adept at using information technology and learning the proper way to process information.
◆ A vision for the future	Understanding self-growth, social change, and technological development so as to gain the skills necessary to bring about one's future vision.
◇ Moral integrity	Learning how to interact with others, practicing empathy and caring for others, and constructing moral principles with which to solve ethical problems.
◆ Independent thinking	Encouraging students to keenly observe and seek out the source of their problems, and to think logically and critically.
◇ A cheerful attitude and healthy lifestyle	Raising an awareness of the fine balance between one's body and soul and the environment; helping students live a meaningful life.
◇ A spirit of teamwork and dedication	Improving one's ability to communicate and cooperate so as to integrate resources, collaborate with others, and solve problems.
◇ A sense of aesthetic appreciation	Equipping students with the ability to sense and appreciate aesthetic beauty, to express themselves clearly, and to enjoy the creative process.

Course Schedule

Week	Date	Subject/Topics	Note
1	107/09/10 ~ 107/09/16	Reviews of fluid dynamics	
2	107/09/17 ~ 107/09/23	Review of fluid dynamics	
3	107/09/24 ~ 107/09/30	Review of fluid dynamics	
4	107/10/01 ~ 107/10/07	Finite volume method	
5	107/10/08 ~ 107/10/14	Finite volume method	
6	107/10/15 ~ 107/10/21	Finite volume method	
7	107/10/22 ~ 107/10/28	Solutions to linear algebra	
8	107/10/29 ~ 107/11/04	Solutions to linear algebra	
9	107/11/05 ~ 107/11/11	Solutions to linear algebra	
10	107/11/12 ~ 107/11/18	Solution of Navier-Stokes' equation	
11	107/11/19 ~ 107/11/25	Solution of Navier-Stokes' equation	
12	107/11/26 ~ 107/12/02	Solution of Navier-Stokes' equation	

13	107/12/03 ~ 107/12/09	Free surface flow	
14	107/12/10 ~ 107/12/16	Free surface flow	
15	107/12/17 ~ 107/12/23	Free surface flow	
16	107/12/24 ~ 107/12/30	Turbulent flow	
17	107/12/31 ~ 108/01/06	Turbulent flow	
18	108/01/07 ~ 108/01/13	Turbulent flow	
Requirement			
Teaching Facility	Computer, Projector		
Textbook(s)	Ferziger and Peric, 2002, Computational methods for fluid dynamics		
Reference(s)			
Number of Assignment(s)	16 (Filled in by assignment instructor only)		
Grading Policy	◆ Attendance : % ◆ Mark of Usual : 50.0 % ◆ Midterm Exam : % ◆ Final Exam : 50.0 % ◆ Other < > : %
