

## Tamkang University Academic Year 108, 1st Semester Course Syllabus

|  |  |            |  |
|--|--|------------|--|
| Course Title   | DYNAMICS   | Instructor | TYAN FENG  |
| Course Class   | TENXB2B<br>DEPARTMENT OF AEROSPACE ENGINEERING, 2B | Details    | <ul style="list-style-type: none"> <li>◆ General Course</li> <li>◆ Required</li> <li>◆ One Semester</li> </ul> |
| D e p a r t m e n t a l   A i m   o f   E d u c a t i o n  |  |            |  |
| <p>I . Apply scientific knowledge and engineering techniques to analyze and solve fundamental aerospace engineering problem.</p> <p>II. Through fundamental theory to design and implement experiments, and be able to analyze experimental data.</p> <p>III. Maintain the spirit of independent thinking, self-elevate, and continuous learning.</p> <p>IV. Uphold the responsible attitude of work ethics and team work.</p> <p>V . Will have access to information, using basic knowledge, diversification, and better ability to adapt to circumstances.</p>   |  |            |  |
| Subject Departmental core competences  |  |            |  |
| <p>A. With basic aerospace engineering expertise.(ratio:30.00)</p> <p>B. Able to solve basic engineering problems via fundamental theory.(ratio:30.00)</p> <p>C. Capable of lifelong learning and research capacity for further studies.(ratio:12.50)</p> <p>D. To work with a sense of mission and responsibility.(ratio:5.00)</p> <p>E. Have team spirit and the ability to communicate with each other.(ratio:12.50)</p> <p>F. With an international perspective, have the ability to connect with the world.(ratio:5.00)</p> <p>G. Taking full advantage of information and utilization of computer-assisted problem solving skills.(ratio:5.00)</p> |  |            |  |
| Subject Schoolwide essential virtues   |  |            |  |
| <p>1. A global perspective. (ratio:10.00)</p> <p>2. Information literacy. (ratio:50.00)</p> <p>3. A vision for the future. (ratio:10.00)</p> <p>5. Independent thinking. (ratio:30.00)</p>   |  |            |  |

|                     |   |
|---------------------|---|
| Course Introduction | Develop an understanding of particle and planar rigid body kinematics and kinetics. Obtain an understanding of Newton's Laws of Motion, and the ability to apply energy and momentum methods to particles and rigid bodies in planar motion. Exposure to simple vibrations. |
|---------------------|---|

**The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.**

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.

- I. Cognitive : Emphasis upon the study of various kinds of knowledge in the cognition of the course's veracity, conception, procedures, outcomes, etc.
- II. Affective : Emphasis upon the study of various kinds of knowledge in the course's appeal, morals, attitude, conviction, values, etc.
- III. Psychomotor: Emphasis upon the study of the course's physical activity and technical manipulation.

| No. | Teaching Objectives   | objective methods |
|-----|---|-------------------|
| 1   | A knowledge of kinematic and kinetic analysis for particles and systems of particles. | Cognitive         |
| 2   | A knowledge of momentum and energy methods for particles and systems of particles.    | Cognitive         |
| 3   | A knowledge of kinematic and kinetic analysis for rigid bodies.                       | Cognitive         |
| 4   | A knowledge of momentum and energy methods for rigid bodies.                          | Cognitive         |
| 5   | 5.A basic understanding of vibrations in one degree of freedom systems.               | Cognitive         |

**The correspondences of teaching objectives : core competences, essential virtues, teaching methods, and assessment**

| No. | Core Competences | Essential Virtues | Teaching Methods               | Assessment         |
|-----|------------------|-------------------|--------------------------------|--------------------|
| 1   | ABCDEFGH         | 1235              | Lecture, Discussion, Practicum | Testing, Practicum |
| 2   | ABCDEFGH         | 1235              | Lecture, Practicum             | Testing, Practicum |
| 3   | ABCDEFGH         | 1235              | Lecture, Practicum             | Testing, Practicum |
| 4   | ABCDEFGH         | 1235              | Lecture, Practicum             | Testing, Practicum |
| 5   | ABCDEFGH         | 1235              | Lecture, Practicum             | Testing, Practicum |

| Course Schedule                  |                          |  |                          |
|----------------------------------|--------------------------|--|--------------------------|
| Week                             | Date                     | Course Contents  | Note                     |
