## Tamkang University Academic Year 108, 2nd Semester Course Syllabus

| Course Title   | JAVA PROGRAMMING  | Instructor       | HUANG-WEN<br>HUANG  |  |  |  |
|--|---|------------------|---|--|--|--|
| Course Class   | DEPARTMENT OF INNOVATIVE INFORMATION  |                  | <ul><li>General Course</li><li>Selective</li><li>One Semester</li></ul> |  |  |  |
|  | AND TECHNOLOGY (ENGLISH-TAUGHT  PROGRAM), 2A  Departmental Aim of Education |                  |   |  |  |  |
| Cultivate pro  | ofessional talents in developing and applying information syster            | m in various fie | elds.   |  |  |  |
|  | Subject Departmental core competence  | es               |   |  |  |  |
| A. Capability of computer program coding, process planning, and problem solving(ratio:100.00)  |   |                  |   |  |  |  |
|  | Subject Schoolwide essential virtues  |                  |   |  |  |  |
| <ul> <li>2. Information literacy. (ratio:70.00)</li> <li>5. Independent thinking. (ratio:10.00)</li> <li>7. A spirit of teamwork and dedication. (ratio:10.00)</li> <li>8. A sense of aesthetic appreciation. (ratio:10.00)</li> </ul>   |   |                  |   |  |  |  |
| The purpose of this course is to introduce Java programming language, which is an another high level programming language. This course contents include Java basic, class and object, Java applet and graphics, control statements, array and some important object-oriented concepts such as inheritance, polymorphism and interface. In lectures, we will do many examples and exercises to illustrate the Java. |   |                  |   |  |  |  |
|  |   |                  |   |  |  |  |

## The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.

I. Cognitive: Emphasis upon the study of various kinds of knowledge in the cognition of the course's veracity, conception, procedures, outcomes, etc.

II. Affective: Emphasis upon the study of various kinds of knowledge in the course's appeal, morals, attitude, conviction, values, etc.

III.Psychomotor: Emphasis upon the study of the course's physical activity and technical manipulation.

| No. | Teaching Objectives   | objective methods |
|-----|---|-------------------|
| 1   | Students are able to get familiar with Java programming language.   | Cognitive         |
| 2   | Students are able to understand Java operators, basics and statements. Particularly it is based on object-oriented methodology. | Cognitive         |
| 3   | Students are able to learn Java Applet which is used in webpage design.   | Cognitive         |
| 4   | Students are able to understand Java control statements in programs.  | Cognitive         |
| 5   | Students are able to understand Java graphics and user interface design.  | Cognitive         |
| 6   | Students are able to practically write Java programs in classes.  | Cognitive         |
| 7   | Enhancing students' ability to write read and speak technical English especially in Java programming language.                  | Psychomotor       |

 $The \ correspondences \ of \ teaching \ objectives: core \ competences, \ essential \ virtues, \ teaching \ methods, \ and \ assessment$ 

| No. | Core Competences | Essential Virtues | Teaching Methods | Assessment  |  |
|-----|------------------|-------------------|------------------|---|--|
| 1   | А                | 2                 | Lecture          | Testing, Study Assignments, Report(including oral and written)                          |  |
| 2   | А                | 258               | Lecture          | Testing   |  |
| 3   | А                | 25                | Lecture          | Discussion(including classroom and online)  |  |
| 4   | А                | 257               | Lecture          | Study Assignments, Report(including oral and written)                                   |  |
| 5   | A                | 278               | Lecture          | Testing, Discussion(including classroom and online), Report(including oral and written) |  |
