Tamkang University Academic Year 109, 1st Semester Course Syllabus

Course Title	SAMPLING THEORY	Instructor	LIN CHIEN-TAI
Course Class	TSMCB4A DEPARTMENT OF MATHEMATICS (SECTION OF DATA SCIENCE AND MATHEMATICAL STATISTICS), 4A	Details	General CourseSelective1st Semester

Departmental Aim of Education

- I. To teach knowledge in mathematics.
- \blacksquare . To train teaching professionals in mathematics.
- III. To develop independent and creative thinking.
- IV. To establish ability to present oneself.
- V. To promote cooperative working spirit.
- VI. To prepare self learning ability in multiple areas.

Subject Departmental core competences

- C. To learn basics of probability and statistic.(ratio:50.00)
- E. To obtain the ability to collect and analyze data.(ratio:50.00)

Subject Schoolwide essential virtues

- 1. A global perspective. (ratio:10.00)
- 2. Information literacy. (ratio:50.00)
- 3. A vision for the future. (ratio:10.00)
- 5. Independent thinking. (ratio:30.00)

Course Introduction

We begin with brief discussions focused on the important role that sample surveys play in the modern world. Then, we start with the problem, describe the methodology needed for solving the problem, and provide the details of the estimation procedure using a compact presentation of the necessary formulas. Finally, we will work out the practical example in full detail.

The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.

I. Cognitive: Emphasis upon the study of various kinds of knowledge in the cognition of the course's veracity, conception, procedures, outcomes, etc.

II. Affective: Emphasis upon the study of various kinds of knowledge in the course's appeal, morals, attitude, conviction, values, etc.

III.Psychomotor: Emphasis upon the study of the course's physical activity and technical manipulation.

manipulation.							
		objective methods					
		Cognitive					
The correspondences of teaching objectives: core competences, essential virtues, teaching methods, and assessment							
Core Competences		Essential Virtues	Teaching Methods	Assessment			
L CE		1235	Lecture, Discussion, Problems solving using R language	Study Assignments, Discussion(including classroom and online), Report(including oral and written)			
			Course Schedule				
Date	Course Contents			Note			
109/09/14 ~ 109/09/20	Introduction (Ch.1)						
109/09/21 ~ 109/09/27	Elemer	Elements of the Sampling Problem (Ch.2)					
109/09/28 ~ 109/10/04	Elemer	Elements of the Sampling Problem (Ch.2)					
109/10/05 ~ 109/10/11	Some I	Some Basic Concepts of Statistics (Ch.3)					
109/10/12 ~ 109/10/18	Some I	Some Basic Concepts of Statistics (Ch.3)					
109/10/19 ~ 109/10/25	Simple	Simple Random Sampling (Ch.4)					
109/10/26 ~ 109/11/01	Simple Random Sampling (Ch.4)						
109/11/02 ~ 109/11/08	Simple Random Sampling (Ch.4)						
109/11/09 ~ 109/11/15	A Sampling Activity-Random Rectangles (Ch.4)						
109/11/16 ~ 109/11/22	Midterm Exam Week						
	Students will in sampling reproblems. The control of the control	Students will be able as in sampling methods problems.
