Course Introduction	The course introduces the multidimensional concepts of globalization from the perspectives of politics, economics, society, environment, and culture. It introduces major political and economic structural issues of the current way of globalisation and sheds light on its problems and opportunities. Students should learn to discuss globalisation issues from different perspectives using the very basic terminology and concepts of the social sciences disciplines and achieve a global outlook on globalization.		

The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.

I. Cognitive : Emphasis upon the study of various kinds of knowledge in the cognition of the course's veracity, conception, procedures, outcomes, etc.
