Course Introduction	The course title tells itself. Global Economic Issues is a course to discuss the economic issues seen universally. As there are so many kinds of issues in this world, this course will focus on development, new trends of modern economy, and indigenous issues. In this semester, the students who take this course should participate in a global dialogue through the interactions with the lecturers and having discussions afterwards.		

The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.
