#### Subject Schoolwide essential virtues

- 1. A global perspective. (ratio:30.00)
- 2. Information literacy. (ratio:20.00)
- 3. A vision for the future. (ratio:20.00)
- 5. Independent thinking. (ratio:30.00)

## Course Introduction

It is now the fourth decade since China began to modernize its economy in the late 19th century. China has achieved substantial economic development success and has become the world's largest manufacturing industry and the second-largest economy. The course intends to first introduce China's current economic development from a historical perspective and further analyze China's vision as a global trade leader. The course aims to discuss some latest affairs relating to China's economic policies that will significantly impact the innovative and sustainable growth in the Chinese economy.

# The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.
