**Course
Introduction**

International security is a study based on international relations, which is mainly used to discuss theories of survival, strategies, interactions and structural relationships among international actors in the international environment. This course will analyze the origins and processes of international security through theories related to international relations in order to explain and predict the future of international security.

The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.
