7. A spirit of teamwork and dedication. (ratio:20.00)

8. A sense of aesthetic appreciation. (ratio:10.00)

Course Introduction

International Economics is the study of economic interactions between countries. It is also a dynamic research subject that equips students with the tools to be able to deal with vital real-world issues in this age of globalization and financial integration. It consists of two equally important topics: international trade, which extends microeconomics to open economies, and international finance, which utilizes macroeconomic analysis.

The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.
