Course Introduction

The World Trade Organization (WTO) is an international organization for liberalizing trade and provides the following three main functions: (1) a forum for governments to negotiate trade agreements, (2) a place for them to settle trade disputes, and (3) an organization to operate a system of trade rules. At its heart are the WTO agreements, negotiated and signed by the bulk of the world's trading nations. These documents provide the legal ground-rules for International commerce. They are essentially contracts, binding governments to keep their trade policies within agreed limits.
