Course Introduction	This course will introduce the LangChain framework which helps facilitate the integration of large language models (LLMs) into applications. Students will learn how to apply Azure OpenAI ChatGPT, Google Gemini and open-source models to develop different domain-specific AI applications through LangChain framework and retrieval augmented generation (RAG) technique.

The correspondences between the course's instructional objectives and the cognitive, affective, and psychomotor objectives.

Differentiate the various objective methods among the cognitive, affective and psychomotor domains of the course's instructional objectives.

I. Cognitive : Emphasis upon the study of various kinds of knowledge in the cognition of the course's veracity, conception, procedures, outcomes, etc.

II.Affective : Emphasis upon the study of various kinds of knowledge in the course's appeal, morals, attitude, conviction, values, etc.

III.Psychomotor: Emphasis upon the study of the course's physical activity and technical manipulation.
